\*Raw steel production tonnage included in this report is estimated based on a sampling of steel producers. Therefore, this report should be used primarily to assess production trends. The AISI production report "AIS 7," produced monthly and available by subscription, provides a more accurate summary of steel production based on data supplied by companies representing approximately 75% of U.S. production capacity.

+Includes revisions for previous months

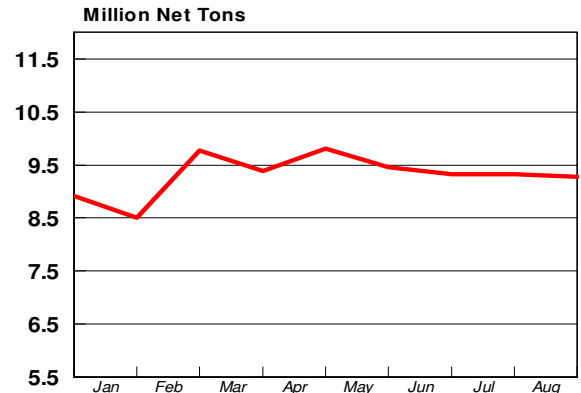

NOTE: Capability for the Fourth Quarter 20xx is approximately xx.7 million net tons vs xx.0 million net tons for the same period last year, and xx million tons for the third quarter of 20xx.
